

Eshcon - Effective Environmental Management

Embedding environmental management into core business practices will deliver real commercial benefits. Consultancy Eshcon advises companies on reducing your impact and saving money.

All organisations can improve efficiency and find those all important cost savings. Plus everyone is affected by environmental legislation. Most companies can easily **reduce energy costs by up to 20%**; this could be the same effect on the bottom line as a 5% increase in sales.

I work with a range of sectors, from micros to multinationals. Environmental management is relevant to all organisations.

ESHCON

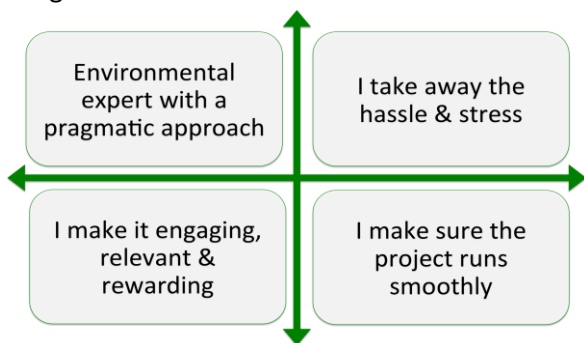

**EFFECTIVE
ENVIRONMENTAL
MANAGEMENT**

How Can ESHCon Help You?

- **ISO 14001 Environmental Management Systems (EMS)**
A new EMS to manage your impacts. Update existing systems need to meet new ISO 14001 requirements by Sept 2018.
- **Carbon Reporting & Energy**
Calculate your carbon footprint to identify reduction opportunities, energy audits & ESOS.
- **Part-Time Environment Manager**
An expert when you need me - leading or supporting your environmental activities, audits & EMS.

The Value - Many companies first start with environmental management **because of customer demand** (e.g. ISO 14001 required in tender specifications), to save money, comply with the law and to build their brand.

Who Am I? - I am an experienced business adviser and auditor, with over 20 years of leadership in environmental management. A Chartered Environmentalist, I am a Registered Auditor & Lead ESOS Assessor. I am the Chairman of Gatwick Diamond Business & volunteer for the Sussex Community Foundation. For adventure, I rode a classic motorcycle across the Himalayas.

Happy Clients - *“Anya managed the project seamlessly with enthusiastic expertise, meeting the tight legislative deadline by finding solutions to overcome difficulties. The ESOS Report has provided us with real business-benefit improvement recommendations. Working with Anya was an absolute pleasure and I would readily recommend ESHCon.”* - Rebecca Strickland, Alstom / Signalling Solutions
