

Part-Time Environmental Manager

Does your company already have an ISO 14001 Environmental Management System but no one to drive or co-ordinate it? Maybe the responsibility has fallen to you, but you don't have the expertise or the time? ESHCon will help develop the EMS to ensure it runs smoothly, taking on the role of Environmental Manager.

You get a **specialist to call upon when needed** - at the end of the phone for advice or coming on-site for key meetings & audits.

This ensures that the system is implemented effectively, delivering your objectives and giving maximum benefit to the company. It will complete the necessary stages, meeting the requirements of ISO 14001, so that the certification audits are smoothly for you.

ESHCon's Part-Time Environmental Manager Service includes:

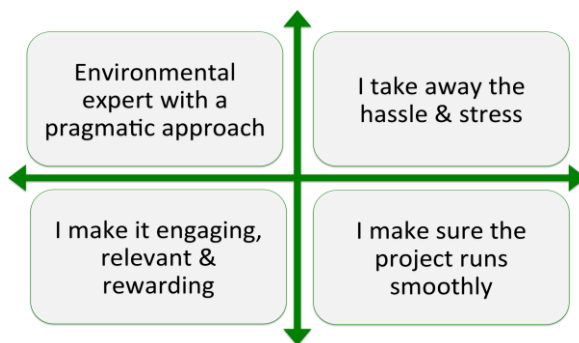

- Ongoing **advice** on requirements of ISO 14001 and assistance with EMS implementation
- Ensure EMS Core Documentation is up to date (inc Policy, EMS Programme, Manual & Procedures)
- Conduct **Legislation** review
- Conduct internal EMS **audit** and monitor corrective actions arising
- Conduct regular EMS Group Meetings
- **Chair** the annual Management Review meeting
- Help prepare for and attend the ISO 14001 **Certification** audits.

If you feel that you don't need all of the services above, I can help with one or two specific things. Conducting EMS audits or leading the internal audit team are commonly chosen. Without guidance, an inexperienced audit team can feel isolated.

Value:

I help you keep up to date with key information, processes & legislation. Your EMS does not stall and continues to deliver commercial benefits.

- **Save time and money** by understanding ISO 14001 requirements & taking the work off you
- **Minimise risk** in complying with legislation and ISO 14001
- **Improve success** in certification audits
- **Keep up to date** and the EMS functioning
- **Increase** staff engagement
- **Make it easier** for you to concentrate on your workload and priorities.

This is especially important when transitioning your EMS to the requirements of the **new ISO 14001** standard, which must be implemented by **September 2018**.

About ESHCon - Anya Ledwith (CEnv)

I am an experienced business adviser and auditor, with over 20 years of leadership in the field of environmental management. A Chartered Environmentalist, a Registered Environmental Auditor & a Lead ESOS Assessor, it is *my mission is to make environmental management the business norm*. With expert advice and a pragmatic approach, I make it easy for clients to find improvements and see the commercial benefit. Away from work, I am the Chairman of Gatwick Diamond Business and volunteer for the Sussex Community Foundation. For adventure, I rode a classic motorcycle across the Himalayas.
